

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI

FROM : SAC, New York

SUBJECT: JAHAM
PERJURY; ESPIONAGE - R;
INTERNAL SECURITY - R
(Bureau file 74-1333)

DATE: April 15, 1949

During a recent conference with Assistant United States Attorney THOMAS F. MURPHY, Southern District of New York, relative to the prosecution of ALGER HISS on the Perjury indictment, Mr. MURPHY advised Agents of this office that he has been told informally by Mr. JAMES M. MCINERNEY of the Tax Division, Department of Justice, that representatives of HISS have indicated in Washington an interest in examining the files of the Justice Department and the State Department with respect to the "AMERASIA" case (PHILIP JACOB--~~JAFEE~~, was., ETAL - ESPIONAGE - X; New York file 65-14461).

Mr. MCINERNEY apparently furnished no further details to Mr. MURPHY in this regard and it is not known if a formal request has been made by the defense for inspection of such files, and if so what action may have been taken over such request.

Mr. MURPHY also commented that this phase of instant matter has been mentioned very briefly by himself to Mr. RAYMOND P. WHEARTY of the Criminal Division and that the latter has indicated that the Department on its own is conducting some sort of an examination of the "AMERASIA" situation, apparently to determine whether or not the situation there was analogous to that in this case with respect to the abstraction of official Government files and the transmittal thereof of unauthorized persons outside the Government.

Mr. THOMAS J. DONEGAN, Special Assistant to the Attorney General, has advised that Mr. WHEARTY has informed him that two individuals in the Criminal Division checked on the "AMERASIA" situation and that "There was nothing to it". Mr. WHEARTY did not indicate to Mr. DONEGAN whether or not contact was had by him with the Bureau on this matter and although it is felt that the

DATE: May 10, 1949

During a recent conference between Agents of this office and THOMAS J. DONEGAN, Special Assistant to the Attorney General, and Assistant United States Attorney THOMAS F. MURPHY, Southern District of New York, who are handling the prosecution of the perjury indictment against ALGER HISS, Messrs. DONEGAN and MURPHY requested that there be made available to them in the immediate future, a transcript of testimony taken by the House Committee on Un-American Activities pertaining to the HISS-CHAMBERS matter. This office is in possession of, and has made available to Mr. DONEGAN, a copy of the House Committee on Un-American Activities testimony taken through September 9, 1948, but it is believed that a transcript of the testimony subsequent to that time should be made available.

~~DELETED RECORD~~

It is respectfully requested that this matter receive expeditious attention inasmuch as the trial is presently set for May 23, 1949.

INTERNAL SECURITY - R

Re Washington Field Division letter to Bureau dated April 8, 1949.

For the information of the Washington Field Division, there is being enclosed herewith one copy of the report of SA NORMAN S. HIGSON dated March 25, 1949, at San Diego, California, which reflects the results of an interview of LEONARD HOWARD DE CAUX and his wife, CAROLINE, on March 2, 1949.

In a cover letter to the Bureau, which was forwarded with referenced report, it was pointed out that the attitude of both DE CAUX and his wife was one of hostile reticence and that during the course of the entire interview, they attempted to slant inquiries toward CIO matters and denounced investigations which "interfered with Constitutional rights and which are designed to smear the reputation of anyone, who has worked for the cause of labor".

Neither DE CAUX nor his wife would volunteer any information and in response to a direct final question, each categorically denied any knowledge of Espionage activities on behalf of any of their associates in Washington, D. C.

In view of the fact that DE CAUX and his wife have been interviewed and since their attitude at that time was highly uncooperative, a second interview at the present time would appear to serve no purpose. For this reason, the interview requested in the referenced letter by the Washington Field Division will not be conducted unless the San Diego Office is otherwise advised.

RESULTS OF EXAMINATION:

It was concluded that the original of each of the photographs from the microfilm listed below in the left column and each of the State Department original documents listed opposite were made by one typing run. That is, the original of Qc74 and K549 were both typed at one time.

Qc74	K549
Qc75	K350
Qc77	K352
Qc78	K353
Qc79	K354
Qc80	K355
Qc81	K356
Qc82	K357
Qc83	K358
Qc84	K359
Qc85	K360
Qc86	K361
Qc87	K362
Qc88	K363
Qc89	K364
Qc90	K365
Qc91	K366

Kisseloff-7267

It was concluded that the original documents depicted on the photographs made from the microfilms listed below on the left are different documents than the original documents of the State Department listed opposite. However, the wording in each photograph is verbatim with its corresponding State Department document. For example, the

typed wording on specimen Qc76 is verbatim with the typed wording on K551 although K551 is not the original of Qc76.

Qc76	K551
Qc92	K567
Qc93	K568
Qc94	K569
Qc95	K569A

With reference to specimens Qc96 through Qc109, Qc120 through Qc131, K570 through K583, K594 through K605, the following observations and conclusions were reached. There are certain marks appearing on most of the microfilm photographs that appear in the same relative positions on the corresponding State Department documents. This in itself indicates the possibility that such microfilm photographs are from the corresponding State Department documents. However, there are also marks appearing on these photographs which are not present on the corresponding documents and vice versa. This may be due to fine particles of dust or fibers that have fallen off the original documents from the time the microfilm photographs were made. These differences prevent a definite conclusion in this respect. However, it can be stated that either the above is true or that the originals of the microfilm photographs and their corresponding State Department documents listed below opposite each other came from common typing runs. That is, Qc96 originates photographically from the original document K570 or the original of Qc96 and K570 came from a common typing run.

Qc96	K570
Qc97	K571
Qc98	K572
Qc99	K573
Qc100	K574
Qc101	K575
Qc102	K576
Qc103	K577
Qc104	K578
Qc105	K579
Qc106	K580
Qc107	K581
Qc108	K582
Qc109	K583
Qc120	K594
Qc121	K595
Qc122	K596
Qc123	K597
Qc124	K598

Kisseloff-7268

Qc125	K599
Qc126	K600
Qc127	K601
Qc128	K602
Qc129	K603
Qc130	K604
Qc131	K605

With reference to specimens Qc110 through Qc119, K584 through K593 the following conclusions were reached.

It was concluded that each of the originals of the microfilm photographs and each of the State Department documents listed below opposite each other originate from common stencils. That is, the original of Qc110 and K584, were made by one stencil.

Qc110	K584
Qc111	K585
Qc112	K586
Qc113	K587
Qc114	K588
Qc115	K589
Qc116	K590
Qc117	K591
Qc118	K592
Qc119	K593

There were also submitted 32 pages of State Department documents. Most of the pages were stapled to the evidence listed at the beginning of this report and were possibly submitted as part of the entire file. Inasmuch as the originals of State Department documents Kc549 through Kc569, Kc569A through Kc605 were submitted, no examination was made of the 32 pages also submitted and they were returned to the Washington Field Office along with the above listed State Department documents on May 6, 1949, photographic copies having been retained in the files of the Laboratory.

Attention is called to the fact that this report covers the examination and comparison of original State Department documents with the photographs representing the microfilm, Grand Jury exhibits #47 and #48, F.B.I. Laboratory numbers Qc74 through Qc131. Laboratory report D-94795 BU dated March 11, 1949 directed to the Washington Field Office, carbon copies of which were sent to all offices receiving copies of this report, set forth the results of a comparison of the microfilm Qc74 through Qc131 with photostatic copies of the State Department documents.

Kisseloff-7269

It should be noted that the instant report differs from report D-94795 BU only in regard to specimens Qc110 through Qc119 and K584 through K593. It is now concluded that the originals of the microfilm photographs Qc110 through Qc119, and their corresponding State Department documents K584 through K593 were made by carbon stencils.

Mr. Gurnea	_____
Mr. Harbo	_____
Mr. Mohr	_____
Mr. Pennington	_____
Tele. Room	_____
Mr. Nease	_____
Miss Gandy	_____

You will recall that sometime ago we made a comparison of photographic prints made from Grand Jury Exhibits #47 and #48 with photostatic copies of certain documents found in the State Department's records. Grand Jury Exhibits #47 and #48 are 35 mm microfilm negatives which have heretofore been referred to as "pumpkin film". Our report dated March 11, 1949, reflected that in our comparison between the photographic prints made from these negatives and the photostats of the State Department documents submitted by the Washington Field Office we determined that all photographic prints contained the same verbatim content as the corresponding State Department photostats. In some instances our conclusions went beyond that stating that the document shown in the photographic print and the corresponding State Department photostat were prepared as a result of a common typing run or came from a common stencil.

The question has since been raised as to whether or not it would be desirable that a comparison be made between the photographic prints prepared from Grand Jury Exhibits #47 and #48 and the now available State Department documents themselves in addition to the comparison previously made between the photographic prints and photostats of these State Department documents. A teletype was forwarded to the New York Office requesting that that Office discuss the matter with the officials handling the prosecution of this case. The teletype pointed out the possibility that the court might request such a comparison during the trial and that this would cause some delay in the trial. The Washington Field Office was requested to obtain the originals of these documents and forward them to the Laboratory, in the event such a comparison was requested. The attached teletype has now been received from the New York Office in which it is pointed out that AUSA MURPHY, who is apparently planning to handle this case in court, was not available for consultation. However, it was discussed with SAAG DONEGAN, who stated that he felt the original State Department documents should be examined.

Before we proceed with this examination, it is felt that the Bureau should be officially apprised of the amount of work involved to make the type of comparison which was previously made from the photostats. On the basis of the photostats of the State Department documents it would require at least one week, or possibly two weeks' time of Mr. FEEHAN, who is handling this case. There is some doubt in my mind whether the further examination will add anything materially to the case. FEEHAN is already in the position to testify that the documents depicted in Grand Jury Exhibits #47 and #48 contain identically the

Kisseloff-7271

Memorandum for Mr. Harbo

same information as that appearing on the corresponding photostats of the State Department documents. It would seem that the question of whether or not identically the same document is involved does not add materially to the case but that the contents of the document is the matter of real pertinence. Furthermore, from information furnished by the Washington Field Office, it is considered highly unlikely by representatives of the State Department who were contacted that the same original documents now available in the State Department would have been available to HISS or anyone else for photographing as was apparently done. The documents now available in the State Department are referred to as file copies and they feel that most of the documents photographed and now shown in Grand Jury Exhibits #47 and #48 were information copies which would have since been destroyed. This matter is not entirely clear as reflected by the letter of April 8, 1949, from the Washington Field Office which is attached.

It should be noted in this connection that, when the Bureau first instructed the Washington Field Office to obtain photostatic copies of the State Department documents which corresponded with the documents depicted in the Grand Jury Exhibits referred to herein, the Investigative Division did not contemplate a detailed Laboratory examination between each corresponding document in an effort to determine if the same identical document was involved, but only planned to show that the content of each was identical.

I understand the State Department has requested the return of the original documents as soon as possible.

I believe it would be desirable that this matter be discussed with New York by telephone in some detail in order that the problem will be fully understood and in order that we may avoid any work which will be unproductive.

RECOMMENDATION: That you discuss this entire problem with Mr. FLETCHER of the Security Investigative Division to determine the desires of that Division in the matter and give consideration to a further discussion of this problem with the New York Office in order that that office in turn may further discuss it with AUSA MURPHY and SAAG DONEGAN.

Kisseloff-7272

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI Attn: FBI Laboratory

FROM : GUY HOTTEL, SAC, Washington Field

SUBJECT: 0 JAHAM

DATE: April 8, 1949

There are enclosed herewith original State Department file copies of State Department documents constituting Grand Jury Exhibits #47 and #48. Whereas this office has previously submitted photostatic copies of these documents to the Laboratory, the original documents are now being transmitted to aid in the examination.

The present problem is that of positively identifying the microfilm documents as being identical with those received from the State Department. Inasmuch as the actual papers from which the microfilm was made are no longer in existence, with the exception of the AIDE MEMOIRE dated July 21, 1937 (Grand Jury Exhibits #48-37 through #48-48), it will be impossible to produce these papers as evidence.

It is requested that the Laboratory make an examination of the documents to effect positive identification of the microfilm documents.

The Laboratory is requested to return the original documents to the Washington Field Office as expeditiously as possible in order that they may be returned to the State Department.

ALGER or PRISCILLA HISS. OSBORN then searched the ledger sheets of that bank for the month of September, 1940 and reported that he was unable to locate any deposit to the credit of ALGER or PRISCILLA HISS on September 7th, or any other day of September, 1940.

Mr. OSBORN said that to his knowledge there is no other branch of the Bank of America designated as the North Park Branch. He said that the only other bank in the North Park area of San Diego is the 30th and University Branch of the First National Trust and Savings Bank.

Mr. S. W. TIRRELL, Assistant Cashier, 30th and University Branch, First National Trust and Savings Bank, searched his records and reported that that bank had never carried an account in the names of ALGER and PRISCILLA HISS. He reported that a search of the signature cards maintained by that branch failed to reveal any record of an account in the name of HISS. TIRRELL searched the Bankers' Guide and said that he was unable to locate any bank, which was known as the North Park Bank, aside from the Branch Bank of America bearing that designation.

Mr. O. C. JENSEN, Vice-President, Bank of America, San Diego, California, Main Branch, said that he was not aware of any Branch Bank of America known as the North Park Branch, other than that in which W. C. OSBORN is Assistant Cashier.

DETAILS:

AT SAN DIEGO, CALIFORNIA:

A photostatic copy of an analysis of a checking account in the names of ALGER and FRISCHILLA HISS contains an entry dated September 7, 1940, reflecting deposits of two checks in the amount of \$65.13 each at the "Bank of America, North Pk. Br. San Diego". This entry is followed by a question mark contained in parenthesis.

W. C. OSBORN, Assistant Cashier, North Park Branch, Bank of America, examined the records of that bank and reported that such records contained no reference to an account in the names of ALGER and FRISCHILLA HISS. Mr. OSBORN searched the signature cards, which reflect the names of all individuals who have had an account at that bank at any time. This file failed to reflect any record of

JAY DAVID WHITTAKER CHAMBERS, was. et al.
PERJURY; ESPIONAGE - R
INTERNAL SECURITY - R

During a recent conversation between agents of the New York Office of this Bureau and T. J. Donegan, Special Assistant to the Attorney General, and Assistant United States Attorney Thomas F. Murphy, Southern District of New York, who are handling the prosecution in this case, Messrs. Donegan and Murphy requested that a transcript of the testimony taken by the House Committee on Un-American Activities pertaining to the Hiss-Chambers matter be made available to them in the immediate future.

The New York Office has in its possession a copy of the House Committee on Un-American Activities testimony taken through September 9, 1948 which has been made available to Mr. Donegan. However, they requested that a transcript of the testimony subsequent to September 9, 1948 be obtained and made available to them if possible.

No action is being taken by this Bureau to obtain the desired transcript in accordance with the procedure which has been followed in this matter. The request is being brought to your attention in the event you may wish to take appropriate steps to secure the transcript desired by Messrs. Donegan and Murphy.

May 4, 1949

JAY DAVID LUTHER GREEN, WAS; ET AL.
INTERNAL SECURITY - R. INTERNAL SECURITY - R.

For your confidential information, Jerry Green, of the Washington Times Herald, recently advised the Bureau that he lives at 3427 O Street, Northwest, Washington, D. C., a row house, and he understands that neighborhood inquiries by Bureau Agents have been conducted on O Street between 34th and 35th Streets to determine whether Alger Hiss has been going into one of the houses four doors removed from Green's house, where a woman resides whom Green considered to be politically unclear.

Green stated he wanted to advise the Bureau that the neighbors have been lying to Bureau Agents who have been exhibiting photographs of Hiss in that neighborhood since he, Green, claims that he knows on good authority that the neighbors, whom he described as a couple of individuals some ninety years of age, denied that they recognized the photographs when, as a matter of fact, they have seen Hiss going in and out of this house.

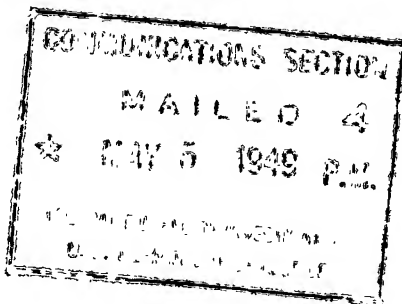

The above is being furnished to you for your information and no contact should be had by your office with Jerry Green.

Jerry Green phoned this afternoon stating that he lives at 3427 O Street, N. W., Washington, D. C., a row house, and that he understands from neighborhood inquiries that Bureau Agents have been conducting on O Street between 34th and 35th an investigation as to whether Alger Hiss has been going into one of the houses four doors removed from Green's place, where a woman resides whom Green considers politically unclean. Green stated he wanted to tip us off that the neighbors have been lying to the Bureau Agents who have been exhibiting photographs of Hiss in that neighborhood as he has it on good authority that the neighbors, whom he described as a couple of flannel-mouthed old babes 90 years old, denied they recognized the photographs, but that, as a matter of fact, they have seen Hiss going in and out of this house.

Green stated he had advice from a Navy Captain who lived in that neighborhood but who is now out of the picture, and understood from this person that the neighbors lied to Bureau Agents exhibiting photographs of Hiss. Green stated if we wanted to have any Agents talk to them about this angle he would be more than glad to talk to them.

It is recommended this information be furnished to the Security Division.
